Attached are site assessment documents we released 2 years ago per a FOIA we got for a similar question, but it doesn't directly answer the question. Perhaps you can help!

Subject: FW: TI Question--FW: Question from Bayview Hunters Point IVAN Meeting

Hi Mindy,

We're going to need help from your staff on this. It might be worthwhile for us to schedule a 30 minute meeting to provide some background.

Subject: TI Question--FW: Question from Bayview Hunters Point IVAN Meeting

Hi, we also are being asked why TI is not on the NPL and I don't know the answer, and Cal EPA person wants to set up a call. I think this should involve you. I'm sending a separate email to you and the management chain regarding both Mr. Patterson and this Greenaction/Cal EPA inquiry.

At the bottom of this is DTSC's response and mention's the call from a community member, which is Andre Patterson.

Subject: RE: Question from Bayview Hunters Point IVAN Meeting

So this is helpful, but I realized as I was summarizing a response that I'm clear on who the lead agency for the cleanup is, but not why it's not on the NPL list. Can you just walk me through how those designations happen so I can get to the heart of the question? If it's easier we can have a quick phone call next week.

Thanks so much! I forwarded this to the person who requested this information and they said this is what they were looking for. Thanks so much for your help!

Subject: RE: Question from Bayview Hunters Point IVAN Meeting

Hi Kevin,

As Lily Lee with the EPA indicated in her recent email, I am the project manager with DTSC assigned to the treasure island project. If you saw the chain of emails from Lily, you saw Nadia's (EPA proj. mgr) response to your question.

Although TI is not on the NPL, it is still treated like a Superfund site in that it is going through the same stringent cleanup requirements (Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) known as "Superfund"). The Navy is required to cleanup following CERCLA just as the Hunters Point site is. However, because Hunters Point is on the NPL list, the U.S. EPA is the lead regulatory agency overseeing the cleanup, along with DTSC and the Water Board. On TI, DTSC is the lead regulatory agency, along with the Water Board. The U.S. EPA has a minor role. The fact that it's not on the NPL list does not affect the cleanup standards.

I have received a call from a community member, as did Nadia, on your question. But it seems no matter how many times we answer it, we still get this question. Feel free to contact me if you have any other questions.
